

Selma City Schools 2022-2023 Mathematics Pacing Guide

The Selma City Schools Pacing Guides serve as the district's instructional calendar to ensure that specific content standards are taught in all classrooms. Pacing guides are prepared for curricular continuity across all schools. The school district will administer quarterly benchmark assessments to assess students' acquisition of the taught standards. The sustainability of learning should also be reflected in students' performance on diagnostic and state assessments.

*Please reference the scope and sequence to support long-term planning and for a comprehensive view of the unit.

** Use the allocated pausing points throughout the chapter to build in additional support time and do not exceed the designated PP days.

***Teachers and the instructional specialist should collaboratively prepare resources for next unit at least two weeks, in advance. Ensure to review the upcoming unit introduction, end of unit assessment expectations, and to identify needed materials.
